SLAM – Struck Like a Match – Inspiring, Igniting and Inciting Women in Leadership

Kim Armstrong, Deputy Minister of Alberta Seniors and Housing

This presentation aims to ignite a curiosity about the different ways in which women lead by exploring research and commentary with respect to gender's impact on leadership. It hopes to inspire women to adopt transformative leadership practices by identifying specific tools and strategies to contemplate. Finally, it will incite women to walk the talk by describing values-based leadership and providing a pathway for women to discover their own leadership passions and values, and to then identify how to weave those values into their actions.
